# Riverside Preparatory School School Accountability Report Card Reported Using Data from the 2014-15 School Year <br> Published During 2015-16 

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at http://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2015-16)

Year and month in which data were collected: 09/05/2012

Riverside Preparatory School held a public hearing on September 17, 2010 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the state are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

## School Facility Conditions and Planned Improvements (Most Recent Year)

Riverside Preparatory School provides a safe, clean environment for students, staff, and volunteers. School facilities were built in 2007 and included 13 portable classrooms, a multi-purpose room/gymnasium, computer lab, three playgrounds, staff rooms, and administrative offices. In 2008, an additional 18 portable classrooms, two restrooms, two shade structures and concrete walkways and landscaping were added. The facility strongly supports teaching and learning through its ample classroom and playground space. Three new playground areas were added during summer 2012. There was an addition of a music practice room in 2012,located at the Riverside Preparatory Middle School campus. In 2013 we added 8 portable classrooms

Maintenance and Repair
Safety concerns are the number one priority of Maintenance and Operations. Charter maintenance staff are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The district maintenance staff has indicated that $100 \%$ of all toilets on school grounds are in working order.

## Cleaning Process and Schedule

A custodial staff ensures that all classrooms and facilities are in good working order. Classrooms are serviced each evening. A summary of these standards is available at the school office or at the district office. The site administration team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school. A joint effort between students and staff helps keep all campuses clean and free from litter.

Deferred Maintenance Budget

Riverside Preparatory School does not participate in the Deferred Maintenance Program, but does set aside sufficient funds for routine repair and maintenance.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes students that did not receive a score; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using students with scores.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes students that did not receive a score; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using students with scores.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

## Opportunities for Parental Involvement (Most Recent Year)

Riverside Preparatory School greatly benefits from its supportive parents who volunteer in numerous capacities. Parents volunteer in classroom, for extra-curricular activities, and in other school-wide support roles. Parents are also welcome to join one of several School Committees. The school benefits from several community partnerships and encourages students to volunteer in their community. The school also sponsors numerous clubs. Additionally, a formal parent organization was formed in May of 2011. The PAC (Parent Advisory Council) is tasked to provide a line of communication with school officials, organize and train volunteers, and provide services through out the school, and receive information about academics. All parents and community members members are encouraged to participate in our Local Control Accountability Plan (LCAP) to ensure that program and resources are being used to best educated the students of Oro Grande School District.

## State Priority: Pupil Engagement

The SARC provides the following information relevant to the Pupil Engagement State Priority (Priority 5):

- High school dropout rates; and
- High school graduation rates.

## School Safety Plan (Most Recent Year)

Many people visit the campus to volunteer in the classroom and participate in school events. Parents and visitors are welcomed and required to check in at the school office upon arrival and obtain a visitor's badge; visitors are required to return to the school office upon departure. During lunch, recesses, and before and after school, teachers and administrators supervise students and school grounds, including the cafeteria and playgrounds, to ensure a safe and orderly environment. The Comprehensive Safe School Plan was developed by the district to comply with Senate Bill 187 (SB 187) of 1997. The plan provides students and staff a means of ensuring a safe and orderly learning environment. Each school includes the following requirements of SB 187 within their safe school plans: current status of school crime; child abuse reporting procedures; disaster procedures, routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment policy; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures. The district evaluates the plan annually and updates it as needed. Safety procedures, including elements of the Safe School Plan, are reviewed with school and district staff in the fall, at the start of each school year. The plan was last updated and reviewed with school staff in 2013.

## Professional Development (Most Recent Three Years)

As part of the growth process, opportunities for training and staff development are provided at both the district and individual school sites to administrators, teachers, and classified staff. The district offers extensive staff development prior to the opening of a new school year. Techniques to incorporate Project-Based Learning are incorporated into all professional development. In addition, staff members are offered professional growth opportunities in curriculum, instructional strategies, and methodologies regularly throughout the year. For additional support in their profession, new teachers enlist the services of the California Teachers Induction (CTI) and Riverside Preparatory's new teacher orientation. Additionally, state-mandated training for health and safety issues are included in regular training throughout the year.
